

This conference is collaboratively organised by Anne Barrett, College Archivist & Corporate Records Manager, Imperial College; Nick Wyatt, Head of Library and Archives, Science Museum; and the STAG Steering Committee.

# The Science and Technology Archives Group presents....

## COLLECTING SPACE: THE INAUGURAL STAG CONFERENCE

Bringing together archivists, scientists and researchers to celebrate the rich heritage of our collections, and to ask how we can continue to collect, preserve and promote the story of space exploration.

**Friday 17 November 2017**

09:30-10:00 Registration and coffee, tea

10:00-10:30 Welcome

**KEYNOTE:** *Saving space: the scientist's view:* Professor Michele Dougherty FRS, Imperial College, Department of Physics and Cassini Project

**10.30-12.30 First session: Collecting Archives of Astronomy & Space Exploration**

12.30-13.30 Lunch break

13.30-14.00 Opportunity to see Science Museum space-related archives in the Dana Research Centre and Library

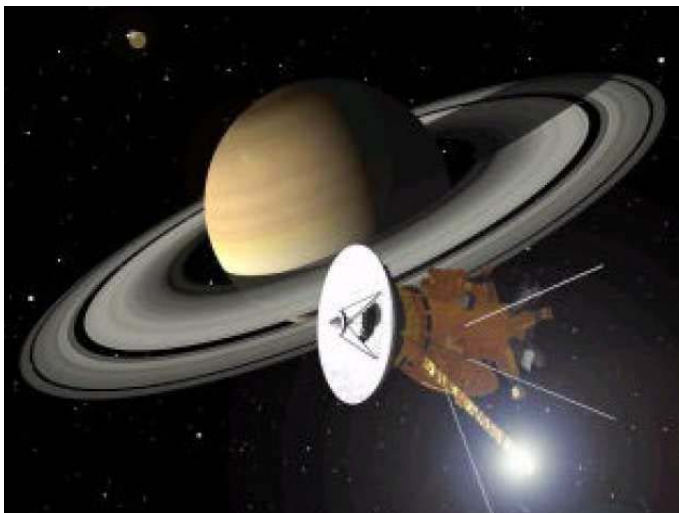

14.15 Tour of the Science Museum's latest space technology exhibition

**15.00-16.45 Second Session: Managing and Preserving Archives of Astronomy & Space Exploration**

16.45-17.30 Session questions leading into Conference round table discussion on science archives and the role of STAG.

17.30-19.00 Reception in the Dana Research Centre and Library.

**STAG exists to celebrate and promote scientific archives in the broadest sense.**

**Friday 17 November 2017** Dana Studio, Dana Research Centre and Library, Science Museum (entry via 165 Queen's Gate). Tickets cost £30 per person.

For the full programme and to purchase tickets please see the STAG Eventbrite page <https://www.eventbrite.co.uk/e/collecting-space-the-inaugural-stag-conference-tickets-38225580741>
